

NEW From the Institute for Local Government:

# Online Resource Center for Insuring Kids' Health

## Practical Tools for Local Officials

The helpful Online Resource Center is designed for local agencies in California and other states that want to connect eligible families with affordable health insurance for their children. It offers:

- ✓ Easy-to-follow, step-by-step information on how to get started;
- ✓ Best practices and tips for success;
- ✓ Templates and resources you can use in your community; and
- ✓ Much, much more!

The Insuring Kids' Health Online Resource Center is based on best practices and lessons learned by California cities and counties that participated in a three-year program called "Communities for Healthy Kids." These participants helped identify the best ways for local officials to connect with parents whose children are eligible for low- or no-cost health insurance.

Visit the Insuring Kids' Health Online Resource Center today at:

[www.ca-ilg.org/insurekids](http://www.ca-ilg.org/insurekids)

Funding for the Insuring Kids' Health Online Resource Center was provided by a generous grant from the WellPoint Foundation.

The Institute for Local Government is the nonprofit research affiliate of the League of California Cities and the California State Association of Counties. Its mission is to promote good government at the local level. [www.ca-ilg.org](http://www.ca-ilg.org)
